

Personalized IT Solutions

Partners Data Systems is a leading provider of systems, storage and networking solutions with an emphasis on high availability. With our wide range of IT hardware, software and service offerings we are your one-stop-shop for best-of-breed IT solutions. With Partners you get unbiased, personalized IT solutions that deliver real savings and results.

Experience Matters

Founded in 1991 Partners is celebrating our 25th year in business. We live and breathe IT by designing, deploying and servicing IT solutions every day. We've been around longer than most and can help guide your next project to a successful outcome.

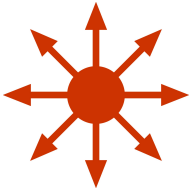

No Charge Pre-Sales Consulting

We offer products from all the best-of-breed manufacturers and pride ourselves on being vendor-neutral. Our goal is to help you find the best solution possible that fits within your budget, even if that means we're only giving you our advice.

Multi-Platform Maintenance and Support

Partners offers maintenance contract options on most top-tier manufacturer IT equipment. As your IT assets get older you may notice that your manufacturer support either gets more expensive or is cancelled. Contact us to find out about 3rd Party Maintenance options and save up to 80% on your maintenance costs.

We're All About the Data

Partners has specialized in High Availability since our founding. We know what reliability means to an enterprise and we have the experience to help you design the right solution for your requirements. Give us a try on your next project and we'll save you time, money and headaches.
